

SAFETY FIRST For safety, Fall Fighter chair monitors have no on/off button. The alarm automatically resets when a patient returns to the pad, or can be quickly silenced with the reset button. The hinged battery cover hides controls and can be secured with a screw to prevent tampering. An LED flashes blue to indicate low battery. **Crest Healthcare Supply**

JUST PULL

The SofPull Centerpull Tissue Dispenser features a completely enclosed roll, with sheet-by-sheet feeding of tissue pulled from a small opening in the front and leaving a minimal amount of tissue exposed. Users can only pull one tissue at a time, which has proven to help reduce usage.
