**VERSATILE SOLUTION** The new PACSlim-5 heat pump delivers 57,100 Btu per hour cooling capacity and 55,700 Btu per hour heating capacity. Less than 30 inches wide, it can be used as a portable cooling unit only, a cooler with electric resistive heat, a conventional heat pump or heat pump with auxiliary electric heat. Units are available in either 208- or 230-volt (single-phase or triple-phase) or 460-volt, triple-phase power supply, with or without 10 or 15kW resistive heat.

**BREATHE EASIER** Active-Pure technology cleans, freshens and purifies the air via a combination of UV light, oxygen and water molecules reacting together and passing through a honeycomb cell coated with a proprietary formulation of non-nano titanium dioxide and other highly reactive metals. The device can be installed in virtually any heating and cooling system.

Air Scrubber Plus • [www.airscrubberplus.com](http://www.airscrubberplus.com)

**EFFICIENT FAN** The Vektor-MH, mixed-flow, high-plume laboratory exhaust fan features a mixed flow wheel and high plume discharge with capacities up to 60,000 cfm and 8-inch water gauge. The plume's conical discharge nozzle, with multiple nozzle sections per fan size for increased efficiency, utilizes a bifurcated opening, which allows easy access to belts and motors located away from the contaminated air stream.

**FAST ACTION** Bleach Germicidal Wipes are EPA-registered and effective against 51 microorganisms, including *Norovirus*, TB and *Clostridium difficile* spores, in three minutes or less on precleaned, hard, nonporous surfaces. The wipes are equal to a 1:10 dilution of liquid bleach and include an odor-masking agent that is formulated to accommodate sensitive health care environments.

Clorox Healthcare • [www.cloroxhealthcare.com](http://www.cloroxhealthcare.com)

**VERSATILE DEVICE**

New Maxi II wet/dry vacuums are designed to provide a flexible, reliable cleaning solution for both wet and dry filtration. Available in nine-, 14- and 19-gallon tank options, the units feature quality filtration that keeps the motor dry and protected from dust or water. Easy operation is offered with the balanced, wide stance on the Maxi II-75 and Maxi II-55. Accessories include hoses, wands and squeegees.

Clarke • [www.clarkeus.com](http://www.clarkeus.com)

**GREEN CLEAN** Accel TB hospital disinfectant uses a unique accelerated hydrogen peroxide technology that is effective against a broad spectrum of pathogens, including *Norovirus*, in one minute. It stays wet on surfaces, so only one application is needed for efficient pathogen kill and compliance with federal regulations. The disinfectant contains no VOCs.

Virox • [www.viroxhealthcare.com/](http://www.viroxhealthcare.com/)

**NO NONSENSE** The industrial strength cleaner and degreaser has a unique blend of biodegradable detergents specially formulated for cleaning carpeting and a variety of other surfaces, including painted areas, fabric, metal and more.
